EDUCATION

P.A. College of Engineering and Technology
B.Tech in Artificial Intelligence & Data Science GPA: 8.8

Pollachi, Tamil Nadu
June 2022 – April 2026

SKILLS

Programming: Python, C, Java, MySQL, MongoDB, HTML, CSS, React JS, JavaScript

Machine Learning: TensorFlow, CNN, LSTM, NLP, PyTorch

Tools: Data Visualization, API Integration, Flask, AR/VR, Unity Engine, ROS

Soft Skills: Leadership, Agile Development, Problem-Solving

WORK EXPERIENCE

Robotics and AI Intern

April 2025 – May 2025

iHub School of Learning

Coimbatore

- Integrated sensor data for robotic control systems using Python and simulated movements via ROS.
- Developed AI algorithms for object detection, obstacle avoidance, and robotic vision using deep learning.

Machine Learning Intern

Oct 2024 – Nov 2024

Live Stream Technologies

Coimbatore

- Trained ML models using CNN and LSTM for image and time-series data; implemented NLP-based text analysis.
- Improved model accuracy through hyperparameter tuning and optimized data pipelines.

Data Science Intern

June 2024 – July 2024

Neha Solutions

Pollachi

- Built Python data pipelines for cleaning and analysis; applied ML algorithms for predictive modeling.
- Created visualizations using Matplotlib/Seaborn and optimized SQL queries for database performance.

PROJECTS

Sign Language Detection using CNN – Real-time gesture recognition for sign language interpretation

Retinoblastoma Detection – 3-layer preprocessing + EfficientNet CNN for retinal image classification

Plant Disease Detection – EfficientNetV2-M & HSV color space for crop disease identification

Three-Stage Anti-Spoofing Detection – Multi-stage pipeline with image analysis, feature extraction & classification

Hybrid Encryption System – SHA-256, RSA, and neural network-based secure encryption framework

Notes App – React Native + Flask + Phi-3 (Ollama) for local LLM inference & knowledge graphs

AI MCQ Generator – Automated question generation using Transformer-based NLP models

Stock Prediction with LSTM – Time-series LSTM model for stock price forecasting

ACHIEVEMENTS

- **Finalist** – YESIST12, IEEE Tunisia Section (Sep 2024); Hackfest 2.0, CMR College (Feb 2025); H! Hacks 2.0, Anna University (Feb 2025)
- **Top 16** – Code Fusion 2.0, University Institute of Engineering, Chandigarh (Jan 2025)
- **Top 20** – Convolve 3.0: Pan IIT AI/ML Hackathon, IIT Guwahati (Dec 2024)
- **1st Prize** – Paper Presentation, KPR Institute of Engineering (Nov 2022)

LEADERSHIP

- **Secretary**, Association of Artificial Intelligence & Data Science (July 2024 – April 2026)
- **Additional Secretary**, Association of Science and Humanities (July 2022 – May 2023)
- **Executive Member**, Association of Computer Science & Engineering / ISTE / EDC (2022–2024)

CERTIFICATIONS

Introduction to Data Science – Cisco (Feb 2025) | Master MongoDB for Python – GUVI (Dec 2024) | Master Data Management – TCS iON (June 2024) | SQL & Relational Databases – Cognitive Class (Oct 2023) | Python Essentials – Cisco (June 2024) | Python (Basic) – HackerRank (Apr 2023)
